INDICATION:

Lip enhancement
(increasing volume,
improving symmetry,
creating a youthful look)

Facial wrinkle
correction (filling
folds like nasolabial
lines and glabellar
lines) to restore facial
volume and achieve a
refreshed, youthful
appearance.

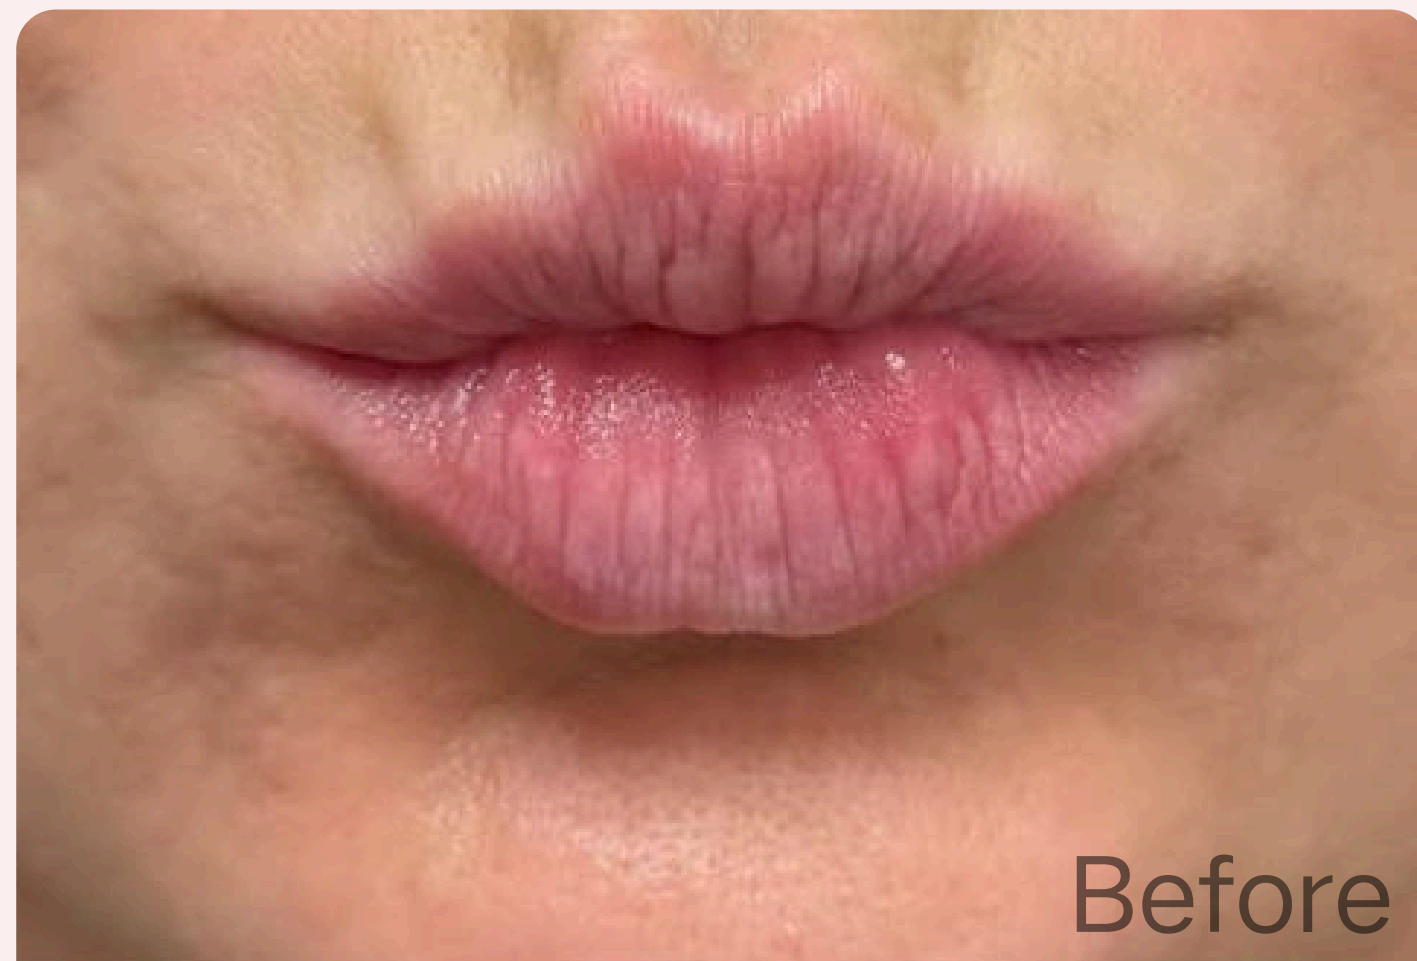

What are the advantages of SECRO-LIPS?

SECRO-LIPS stands out with a red VB12-infused formula, balanced HA concentration, natural plumping, and reliable safety, tailored for lip enhancement.

Core Advantages:

- **Balanced HA Concentration (20mg/ml):** The 20mg/ml monophasic cross-linked hyaluronic acid offers ideal softness and support for lips, ensuring a natural, kissable texture without stiffness.
 - **Precise Lip Enhancement:** Enhances volume for a plump pout, defines the cupid's bow and lip borders, corrects asymmetry, and boosts hydration—customizable results from subtle to bold.
 - **Long-Lasting & Biocompatible:** Effects last 8–18 months; HA is fully biocompatible and biodegradable, with minimal irritation or downtime post-treatment.
 - **Monophasic Gel Structure:** Ensures even distribution, preventing lumps in the delicate lip area for smooth, natural-looking results.
 - **Clinical Ease:** Suggested injection depth (superficial to mid-dermis) and recommended techniques (micro-droplet or cannula injection) allow precise, safe administration with consistent outcomes.
